

## **COLOURED POLYMER FLAKES**

POLYMER FLAKES can be added to epoxy, polyurethane, or polyaspartic to create beautiful floor surfaces. Polymer flakes are available in different sizes from 1/16" to 1/4", or in hybrid versions including all sizes together. Choose from many blended options or customize your blend to enhance any environment.

### ***Advantages***

- Unparalleled durability
- Easy to maintain surface
- Seamless and joint-free

### ***Areas of Use***

- Commercial
- Residential
- Industrial
